GUTTER COVER INTERNATIONAL, LLC

# The Solution®

## The Versatile Gutter Protection System®

Tested and Proven to be the best!

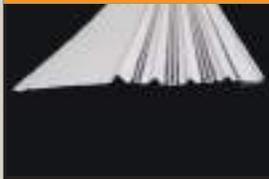

**T**he Solution® is made of 100% quality aluminum, and the aluminum cover adds strength to your gutters while keeping debris out and water free flowing. There are two styles of Solution Series, the Fascia Mount and the Versatile Roof Mount.. The Fascia Mount Solution is available in three sizes to accommodate 4 ½", 5" and 6" gutters. The Versatile Solution (Roof Mount) will also fit 4 ½", 5" and 6" gutters available only in one size. Its sleek

**Regular Solution:**  
Available for 4-1/2, 5 and 6 inch gutters

**Versatile Solution:**  
For under the shingle application

interlocking design with 0.125 perforations work to keep gutters clear of debris and keeps your gutters free flowing. The Solution® is installed over existing gutters. It is secured to the roof with deck screws and to the top lip of the gutter with color matching zip screws.

The Solution® underwent some of the most rigorous testing by PRI Technologies, a leading testing company for the nation's top ranked roofing and construction organizations. It was designed to protect your property or business by eliminating the problems associated with clogged gutters and major repairs. Test results showed that The Solution® can:

- Handle rainfall of 22 inches per hour
- Prevent leaves and debris from entering the gutter

The clogging of gutters over time can result in more weight and strain on the gutters, slowly pulling them away from the fascia resulting in expensive repairs. Damage to landscaping, ruined basements and destruction to the foundation of a home or structure can be a result of gutter overflow from clogged gutters. Also improperly cared for gutters can also lead to other serious and possibly more unnoticeable problems including, but not limited to mold, mildew, rot and possible related health issues.

The Solution® will add elegance, style and value while giving you a peace of mind knowing that your home is being protected. The uniquely designed cover secures to your gutters ensuring a proper fit

**Popular Roof Styles**

**Regular Solution**

while its low profile blends into the roof line. The Solution® is available in the most popular colors.

Easy installation no mounting brackets or hangers for that seamless look to your home or structure. The Solution® is compatible with various roof styles and can be utilized with a heat cable to prevent ice and snow build-up.

Eliminate the task and risk of gutter cleaning while increasing the value of your investment. Long-term injuries and costs due to falling off a ladder can also add up to thousands more. More than 100,000 people a year suffer serious injuries from falls while on a ladder and the majority of these occur at heights as low as 10ft, the height of a single story home. The average cost of an injury from

a ladder fall is \$4,000 that is just upfront cost of hospital stays, prescriptions and physical therapy. Be prepared at an affordable price. Get The Solution®.

The Solution™ (regular and versatile) has a 5 year material and 2 year performance warranty.
